Contents of Volume 44

NO. 1, JANUARY 1986

Plants as a Source of Vitamin D_3 Metabolites, by Ricardo L. Boland, PhD 1
Obesity and Television Viewing in Children and Adolescents 9
Vitamin K Deficiency in Chronic Gastrointestinal Disorders 10
Experimental Scurvy in a Young Man 13
"Vitamin D-like Action of *Solanum malacoxylon* on Calcium Transport by Rat Intestine": J.M. O'Donnell and M.W. Smith 16
Structured Triglycerides Improve Nitrogen Retention in Burn Trauma 19
Metabolism and Toxicity of Capsaicin 20
Effect of Meals on Iron Absorption 22
Vitamin B_6 Deficiency Affects Lung Elastin Crosslinking 24
Pellagragenic Effect of Excess Leucine 26
A Proposition: Megadoses of Vitamin C Are Valuable in the Treatment of Cancer 28
Nutrition Notes 32

NO. 2, FEBRUARY 1986

Eleventh Marabou Symposium: The Nutritional Re-emergence of Starchy Foods
Opening Remarks 38
The Future of Carbohydrates in Human Nutrition 40
Simple and Complex Carbohydrates 44
Carbohydrates in Lower Gut Function 50
Carbohydrates: Energetics and Performance 55
Carbohydrates, Plasma Triglycerides, and Coronary Heart Disease 60
Carbohydrates, Diabetes, and Metabolism 65
Nutritional Aspects of Modified Food Starches 74
Discussion 80
Summary 89

NO. 3, MARCH 1986

Sensory-specific Satiety, by Barbara J. Rolls, PhD 93
Feeding during Diarrhea 102
Feeding Practices of American Infants and Children 103
Breast-feeding and Weaning in Mexico and the US 104
Dietary Phosphorus and Secondary Hyperparathyroidism in Infants Receiving Humanized Cow's Milk Formula 107
Lysinuric Protein Intolerance: A Rare Cause of Childhood Osteoporosis 110
"Self Selection of Diet by Newly Weaned Infants": Clara M. Davis, MD 114
Interactions of Vitamin E and Calcium in Chemical Cytotoxicity 117
Cataract as an Outcome of Zinc Deficiency in Salmon 118
Nutrition Notes 121

NO. 4, APRIL 1986

Linolenate-derived Polyunsaturated Fatty Acids and Prevention of Atherosclerosis, by J. Dyerberg, MD, PhD 125
Dietary Cow's Milk Protein Is Transferred to Human Milk 135
Dietary Fish Oil Alters Leukotriene Generation and Neutrophil Function 137
Treatment of Combined Hyperlipidemia with Fish and Vegetable Oils 140
"Plasma Lipid and Liproprotein Pattern in Greenlandic West-coast Eskimos": H.O. Bang, J. Dyerberg, and A.B. Nielsen 143
Cholesterol Metabolism and ω-3 Polyenes in Fish Oils 147
VLDL-apolipoprotein Secretion by Perfused Rat Livers and Cultured Hepatocytes 148

Essential Fatty Acids and Maintenance of the Epidermal Water Barrier 151
Growth Hormone and Bovine Lactation 154
Nutrition Notes 156

NO. 5, MAY 1986

Catch-up Growth in Children, by Ann Ashworth, PhD and D.J. Millward, PhD, DSc 157
Advantages of Supplemetary Alanine in Infants with Genetic Defects of Amino Acid Metabolism .. 164
Vitamin E Status of Premature Infants 166
Breast-fed Infants Grow More Slowly than Infants Fed Formula and Solids 168
Hospital Influences on Early Infant Feeding Practices 170
Catch-up Growth Following Severe Malnutrition 173
"A Nutritional Disease of Childhood Associated with a Maize Diet": Cicely D. Williams, BM 176
Maternal Riboflavin Carrier Protein Is Essential for FAD Synthesis in the Rat Fetus 179
Zinc Bioavailability of Human and Cow's Milk 181
Copper Bioavailability: Assessment and Extrinsic Factors 183
Hormonal Regulation of Phosphoenolpyruvate Carboxykinase 186
Nutrition Notes 188

SUPPLEMENT, MAY 1986

Diet and Behavior: A Multidisciplinary Evaluation

Preface 1
Effects of Foods and Nutrients on Brain Function
Ways That Foods Can Affect the Brain, by Richard J. Wurtman, MD 2
Biochemical Regulation of Brain Function, by Walter M. Lovenberg, PhD 6
Diet and Brain Function, by Michael B. Krassner, MD 12
Blood-Brain Barrier Transport of Nutrients, by William M. Pardridge, MD 15
Acute and Chronic Effects of Protein and Carbohydrate Ingestion on Brain Tryptophan Levels and Serotonin Synthesis, by John D. Fernstrom, PhD 25
Nutrition and Brain Function: Trace Elements, by Harold H. Sandstead, MD 37
Effects of Foods and Nutrients on Behavior
Approaches to Assessing the Dietary Component of the Diet-Behavior Connection, by G. Harvey Anderson, PhD and N. Hrboticky, MSc 42
Effects of Carbohydrates on Mood and Behavior, by Bonnie J. Spring, PhD, Harris R. Lieberman, PhD, Geoffrey Swope, and Gail S. Garfield 51
The Behavioral Effects of Food Constituents: Strategies Used in Studies of Amino Acids, Protein, Carbohydrate and Caffeine, by Harris R. Lieberman, PhD, Bonnie J. Spring, PhD, and Gail S. Garfield 61
Effect of L-Tryptophan and Other Amino Acids on Sleep, by Ernest L. Hartmann, MD 70
Nutrients and Newborn Behavior: Neurotransmitters as Mediators? by Michael W. Yogman, MD, MSc 74
Psychiatric Aspects of the Relationship Between Eating and Mood, by Timothy D. Brewerton, MD, Margaret M. Heffernan, MA, and Norman E. Rosenthal, MD 78
Diet and Criminal Behavior
Diet, Crime, and Delinquency: A Critique, by Gregory E. Gray, MD, PhD 89
Reactive Hypoglycemic Tendency Among Habitually Violent Offenders, by Matti Virkkunen, MD 94
Food Allergy and Behavior: Definitions, Mechanisms and a Review of the Evidence, by Fred M. Atkins, MD 104
The Effect on Aggression and Mood of Altering Tryptophan Levels, by Simon N. Young, PhD .. 112
Optimal Methods and Issues in Nutrition Research in the Correctional Setting, by Susan E. Pease, PhD and Craig T. Love, PhD 122
Prison Dietary Standards and the Research Potential for Evaluating the Effect of Diet Upon Behavior, by W. Hardy Rauch 132
Carbohydrate Intake and Hyperactivity
Assessment of the Classroom Behavior of Hyperactive Children, by Rachel Gittelman, PhD ... 135

Double-Blind Challenge Studies of Behavioral and Cognitive Effects of Sucrose-Aspartame Ingestion in Normal Children, by H. Bruce Ferguson, PhD, Clare Stoddart, PhD, and Jovan G. Simeon, MD 144
Associations Between Nutrition and Behavior in Five-Year-Old Children, by Ronald J. Prinz, PhD and David B. Riddle 151
Diet and Hyperactivity, by Judith L. Rapoport, MD 158
Cognitive Function
Acute Effects of Meals on Perceptual and Cognitive Efficiency, by Angus Craig, DPhil. 163
Strategies for Improving Research Related to Diet and Behavior
Complex Interactions Affecting Nutrition-Behavior Research, by Robin B. Kanarek, PhD and Nilla Orthen-Gambill, PhD 172
Nutritional Control in Animal Experiments, by Alfred E. Harper, PhD 175
Methods for Assessing the Adverse Effects of Foods and Other Chemicals on Animal Behavior, by Charles V. Vorhees, PhD. 185
Neurotransmitter Precursors: From Animal Experiments to Human Applications, by Peter D. Leathwood, PhD. 193
Dietary Survey Data: Sources and Limits to Interpretation, by Catherine E. Woteki, PhD 204
Evaluating the Nutritional Status of Individuals: A Critique of Approaches, by Barbara A. Underwood, PhD 213
Behavior as an Outcome in Nutrition Research, by David E. Barrett, PhD. 224
Individuality in the Response to Dietary Constituents: Some Lessons from Drugs, by Allen H. Neims, MD, PhD. 237
The Regulatory Perspective of Diet-Behavior Relationships, by Thomas J. Sobotka, PhD. 241
Dietary Pharmacology, by Peter B. Dews, MB, ChB, PhD 246
Diet and Behavior Symposium Proceedings: Summary 252

NO. 6, JUNE 1986

Renewed Questions about Polyunsaturated Fatty Acids, by William E.M. Lands, PhD 189
Effects of Isotretinoin on Plasma Lipids and Lipoproteins 196
The Genetics of Obesity 199
Methods for Obtaining Fat Microbiopsies 200
Low Plasma Levels of Vitamin A in Preterm Neonates with Bronchopulmonary Dysplasia 202
Biochemical Effects of Marine Fish Oils in a Human Subject 205
"Thromboxanes: A New Group of Biologically Active Compounds Derived from Prostaglandin Endoperoxides": M. Hamberg, J. Svensson, and B. Samuelsson 208
High-cholesterol Diet in Hypertensive Rats 212
Arachidonate Retention in Fatty Acid Deficiency 213
Uptake, Distribution, and Esterification of Retinol in Liver 216
Nutrition Notes 218

NO. 7, JULY 1986

Animals in the Service of Human Nutrition, by Elsie M. Widdowson, FRS, DSc, PhD 221
The Role of the Ileum in Food Intake Regulation 228
Preoperative Nutritional Support 230
Carnitine Therapy in Disorders of Propionate Metabolism 232
Fluoride in Food and Water 233
Recently Described Defects in Vitamin B_{12} Metabolism 236
Cobalamin E Disease in an Infant 239
"The Paths to the Discovery of Vitamins A and D": E.V. McCollum, PhD 242
Use of Cells in Culture to Solve Basic Nutrition Problems. 245
Pyridoxal Phosphate Regulates Enzyme Induction with Corticosteroids 247
An Ascorbate Shuttle Drives Catecholamine Formation by Adrenal Chromaffin Granules 248
Alkaline Hydrogen Peroxide Unlocks Energy in High-Fiber Lignified By-Products 251
Nutrition Notes 252

NO. 8, AUGUST 1986

Thyroid Dysfunction in Protein-Calorie Malnutrition, by Yves Ingenbleek, MD, PhD 253
Dietary Calcium and Colonic Epithelial Cell Proliferation 264
Infant Growth and Obesity in Samoa 265
Vitamin E Deficiency and Neurologic Dysfunction 268
Alterations in Thyroid Function in Protein-Calorie Malnutrition 270
"Chemistry of Thyroxine: Constitution and Synthesis": C.R. Harington and G. Barger 274
Carnitine Derivatives Are Antiketogenic and Hypoglycemic Agents 277
Dietary Methyl Groups and Cancer 278
Species Variations in Response to Parenteral Fluoride 281
Nutrition Notes 282
Letters to the Editor 283

NO. 9, SEPTEMBER 1986

n-3 Fatty Acids in the Brain and Retina: Evidence for Their Essentiality, by Martha Neuringer, PhD and William E. Connor, MD 285
Effects of Feeding in Burn Injury 295
Isotretinoin and Human Teratogenicity 297
Production of 1,25-Dihydroxyvitamin D_3 in Skin 299
Combined EFA Deficiency in a Patient on Long-Term TPN 301
"Reproduction and Survival of Rainbow Trout *(Salmo gairdneri)* Fed Linolenic Acid as the Only Source of Essential Fatty Acids": T.C. Yu, R.O. Sinnhuber, and J.D. Hendricks 306
Role of Zinc in Enzyme Regulation and Protection of Essential Thiol Groups 309
The Enzymes and Kinetics of Hepatic Retinol Metabolism 311
Letters to the Editor 315
Nutrition Notes 316

NO. 10, OCTOBER 1986

Livestock Toxicosis, Slobbers, Locoism, and the Indolizidine Alkaloids, by Harry P. Broquist, PhD. 317
The Evolution of Serum Lipoproteins in Infancy 324
Manipulation of Children's Eating Preferences 327
Ascorbic Acid Intake and Salivary Ascorbate Levels 328
Energy Expenditure in Smokers 330
Why Does Phenylalanine Do Harm in PKU? 331
An Inborn Error of Cholesterol Biosynthesis 334
"Determination of Structure of β,δ-Dihydroxy-β-methylvaleric Acid": D.E. Wolf, C.H. Hoffman, P.E. Aldrich, H.R. Skeggs, L.D. Wright, and K. Folkers 337
Pyridoxine Deficiency and Phospholipid Metabolism 340
Metabolism of Bovine Adipose Tissue during Lactogenesis and Lactation 342
Alcohol Abuse and Fatty Acid Ethyl Esters 343
The Biosynthesis of Phosphatidylmannose and Related Compounds 345
Lead-associated Protein in Kidney and Brain 347
Nutrition Notes 348

NO. 11, NOVEMBER 1986

Toward Harmonization of Dietary, Biochemical, and Clinical Assessments: The Meanings of Nutritional Status and Requirements, by George H. Beaton, PhD. 349
Zinc and Fetal Alcohol Syndrome: Another Dimension 359
Bone Loss in Amenorrheic Athletes 361
Kinetics of Insulin Action in Obesity 363
The Korsakoff Syndrome in an Alcoholic Man with Scurvy 366
"Voyage Into the South Sea": Sir Richard Hawkins 370
Effect of Age on the Linoleate Content of Skin Acylglucoslyceramide in Mice 372

Vitamin E and Erythrocyte Survival in Rats 373
Vitamin D and Insulin Secretion 375
Regulation of Aromatic Amino Acid Catabolism 377
Nutrition Notes 380

NO. 12, DECEMBER 1986

Family-line and Socioeconomic Factors in Fatness and Obesity, by Stanley M. Garn, PhD 381
Author Index 387
Subject Index 408
Author and Subject Indexes to Diet and Behavior: A Multidisciplinary Evaluation (Supplement) . .s1-s20
